

I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides a wide variety of high quality programming that is not available elsewhere and I pay for these services. It is not proper that the NAB or any other body attempt to limit satellite radio providers or my ability to subscribe to such services. Accordingly, I urge the FCC to reject the NAB's petition 04-160. Further, I call upon the FCC to overtly SUPPORT the ability of satellite radio providers to provide programming I demand and deserve.
